REAL ESTATE

Super Sized Family Home...

If you have an eye for the future then this home is one you must consider, as you may not need to extend or move out, because it will never be too small, at 316 m² under roof.

Larger than usual in all respects, we can only describe the Kitchen as huge, the lounge palatial, the family living as generous and so too is the master bedroom. Even the garage is larger than average.

Loaded with quality appointments; 900mm wide oven and gas cook top, faux stone laminate bench tops, 2 pack gloss finish doors, quality cabinetry with soft close draws, gleaming bathrooms, ceramic tiling and luxurious carpet throughout ducted heating and cooling, plenty of storage space, as well as window furnishings included. Other features are, internal access to double lockup garage and an al-fresco living area, northern rear aspect, parkland next door and a 572m² plot.

So enjoy modern low maintenance living and immerse yourself in a super lifestyle location!
